PROFESSIONAL SUMMARY

Data and statistical analyst experienced in provincial economic accounts, administrative data validation, dataset transformation, PSIC establishment classification, industry analysis, reports, dashboards, and visualizations. Combines public-sector statistical work with embedded software development experience.

PROFESSIONAL EXPERIENCE

Statistical Analyst (COSW) - Provincial Product Accounts

Jan 2024 - Present

Philippine Statistics Authority (PSA), Zamboanga del Norte

- Collect, process, validate, and transform LGU administrative data for provincial economic accounts.
- Classify establishments using PSIC and support industry-level revenue and value-added estimates.
- Contribute to provincial GDP compilation; analyze sector growth, shares, and contributions in line with the Philippine System of National Accounts.
- Prepare statistical tables, visualizations, infographics, presentations, and reports for stakeholders.

Software Development Engineer

Nov 2022 - Jun 2023

FPT Software Philippines Inc. - Global Automotive and Manufacturing project

- Developed embedded C code in an automotive software environment using AUTOSAR, MISRA-C, and BARR-C practices; used EB tresos and CAN, I2C, and UART interfaces.
- Supported code reviews and technical documentation with Git.

SELECTED DATA PROJECTS

- Provincial Economic Performance Dashboard: provincial GDP, annual growth, sector contributions, and industry performance using PPA data.
- Business Survey Data Analysis: establishment data validation, summary tables, and reporting.
- SQL-Based Business Data Analysis (in progress): queries, joins, aggregations, and summaries.

TECHNICAL SKILLS

Data: cleaning, validation, transformation, exploratory analysis, trend/time-series analysis, statistical and economic analysis, PSIC industry classification.

Tools: Excel (PivotTables, XLOOKUP, dashboards), Google Sheets, SQL (developing), Python (basic), Power BI/Tableau (developing), MySQL/PostgreSQL (learning), C/C++.

Reporting: visualization, dashboarding, statistical tables, presentations, stakeholder reporting.

EDUCATION

Bachelor of Science in Computer Engineering

Jose Rizal Memorial State University - Main Campus | SY 2021-2022

Additional tools and proficiency levels are presented conservatively to reflect current experience.
